

BOARD POLICY

District Master Plan to Implement Part 28, Chapter Six, California Education Code

School improvement programs at the elementary, intermediate, and high school levels will be planned, implemented, and evaluated to the extent that funds are mandated for these programs and according to the district Master Plan.

It is the intent of the Board that each school improvement plan shall seek to provide appropriate and necessary experiences in order that students may achieve their highest potential of personal and educational excellence.

The principal of each district selected school shall establish an advisory site council to assure the appropriate involvement of staff, parents, community, and students at the high school level in the planning and implementation of a school improvement plan. Any school improvement plan and any modification thereto shall be supervised and administered by the school principal.
