

Administrative Regulation

Fund Raising Activities, Intermediate and Secondary Schools

Each high school and intermediate school is permitted only one community canvass each year. In those cases where a second community canvass may be necessary, prior approval of the superintendent or a designee is required. Community canvasses must take place within the attendance area of the school. The maximum period of time allowed for the canvass will be two weeks. No more than two items may be sold.

Schools may assist other schools in pre-sale for special events.

Schools may not participate in swap-meet-type programs.

No raffle ticket sales may be conducted by students; nor may students be involved in such manner as to imply sponsorship by school authorities or in any sense to be interpreted as an extension of the regular educational process or programs.
